QUAYLE ACTION

Claim Objections

1. Claim 19 is objected to because of the following informalities: Claim 19 is objected to as being improper dependent claim. The claim purports a device made by the method of claim 18. It is conceivable that the device can be made by another method other than the method of claim 18. Clearly, the device (for instance: the photosensitive substrate in this case) can made by another method such as the method in Kaminsky or Ishizawa. Applicant is reminded that the patentability of a device /product does not depend on its method of production. Once a product appearing to be substantially identical is found and a 35 U.S.C. 102/103 rejection made, the burden shifts to the applicant to show an unobvious difference (see *In re Mareosi*, 710 F.2d 798, 802, 218 USPQ 289, 292 (Fed. Cir. 1983). Appropriate correction is required.

Election/Restrictions

2. This application contains claims 23-25 drawn to an invention nonelected with traverse in the response filed April 4, 2005. A complete reply to this office action must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: Claims 1-18, 20-22 have been found to be allowable since the prior art either alone or in combination, neither discloses nor makes obvious the combination of an optical element and corresponding method

Art Unit: 2851

comprising among other features, a substrate having at least one surface on which a layer of material is disposed, the layer of material being selected to be at least partially transmissive to radiation with a predetermined wavelength λ lower than 100nm and to substantially eliminate a radiation greater than 100nm, as recited in the instant claims of the present invention.

Applicant's arguments filed September 13, 2005 are deemed persuasive and incorporated herein by reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. This application is in condition for allowance except for the above mentioned formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
